SUMMARY

Full Stack Developer with hands-on experience designing and shipping responsive web applications using React, Django, Node.js, PHP, and MySQL. Delivered three production applications end-to-end — from schema design through deployment — covering CRUD workflows, REST API integration, and role-based access control. Comfortable owning a feature from requirements to debugging, with a strong grounding in Git-based collaboration.

WORK EXPERIENCE

Software Developer - wextechnosoft

AUG 2026 - Present

- Built and maintained 3 production web applications (e-commerce, institute management, and HRM platforms) using HTML5, CSS3, JavaScript, Bootstrap, React.js, PHP, and MySQL, supporting daily use across multiple client teams.
 - Engineered responsive, reusable UI components in React.js that cut new-module front-end development time by an estimated 20–30%.
 - Designed and implemented CRUD operations, form validation, and dynamic data workflows in PHP/MySQL, reducing manual data-entry errors reported by end users.
 - Diagnosed and resolved front-end and back-end defects across the application lifecycle, partnering with a cross-functional team to hit sprint delivery deadlines.
-

PROJECTS

FLEET MANAGEMENT SYSTEM

- Architected a full-stack platform for vehicle operations, bookings, and expense tracking, replacing a manual spreadsheet-based process.
- Built centralized REST APIs with Express.js and MySQL to synchronize fleet, booking, and expense data across modules.
- Designed a real-time dashboard surfacing fleet utilization and operating costs to support faster operational decisions.

CRACKERS E-COMMERCE WEBSITE

- Developed a responsive e-commerce platform (HTML, CSS, JavaScript, Bootstrap, PHP, MySQL) covering product browsing, category filtering, and search.
- Implemented the shopping cart, product-detail, and order workflows end-to-end, from checkout UI to backend order persistence.

LEAD MANAGEMENT SYSTEM

- Built a web-based CRM to track student enquiries, follow-ups, and admissions, integrating a React frontend with Django REST APIs.
- Implemented role-based access control for counselors, admins, and managers, enforcing permission boundaries across the app.

TECHNICAL SKILLS

Languages & Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Redux Toolkit, Bootstrap, jQuery
Backend & APIs: Python, Django, Django REST Framework, Node.js, Express.js, PHP, REST API
Development

Data & Tools: MySQL, Git, GitHub, Postman, XAMPP, VS Code

EDUCATION

Bachelor of Computer Science with 7.77 CGPA	Kamarajar University	Aug 2022 - May 2025
Higher Secondary Education - St. Joseph's Girls	Higher Secondary School	Jun 2021 - Apr 2022

CERTIFICATIONS

Advanced Full Stack Developer (AFSD) — IPCS Global, Madurai
Software Developer Intern — WebX Technosoft
